Greatest Track and Field Meet Ever Scheduled Here Comes Off at Cummings Field.

The athletes from the university will compete with the star track team from Leland Stanford, ir., university this aft ernoon on Cummings field, starting at 1:30 in the last track meet of the season. This will be the hardest meet of the season for the U team and the Stanford team is the strongest aggregation that has en-tered this region. The visiting team is one of the best ones that has ever been brought together on the coast and they have been so successful this season that the school authorities believe it worth while to send them 2,000 miles to compete

while to send them 2,000 miles to compete in the western conference.

The Stanford team will meet a number of other schools on its way to Chicago. Among them will be the University of Colorado, and it is the ambition of the Utah men to make a better showing against the coast athletes that the Boulder men do. The trip taken by the Stanford is one of the longest attempted by a follege athletic team and it will be possible to compare the merits of the track teams all over the country by comparative scores with the Stanford team.

Notwithstanding the strength of the Stanford team Utah is prepared to give them a hard run and ought to pull down a good second. From the records of the men who will compete this afternoon it is expected that the best records ever made in this state will be made on Cumnings.
